

Maths Task

The pie chart shows the favourite fruit of 48 children.

- How many children chose banana?
- How many children chose apple?
- What fraction of the children chose orange?
- What fraction of the children chose grapes?

Comparing story openings

Read the openings to Jumanji ([day 1 in your booklet](#)), Alice in Wonderland (day 4 in your booklet) and Coraline (day 7 in your booklet) again.

What similarities and differences can you see?

You are going to write your own portal story in more than 1 chapter. A portal story is one where the main character goes through a portal into another reality. In Jumanji, it is the game coming to life. In Alice in Wonderland, it is Wonderland and in Coraline, it is an alternative reality with the “other” mother.

What features do you think you will need to include?
