Maths Task

Number Challenge

Dotty Six

Here's a game to play with a friend, a 3 by 3 grid and a six-sided dice.

Take turns to throw a dice, then draw that many dots in one of the boxes on the grid. You can't split them up and a box can't contain more than six dots.

The person who completes a line of three sixes wins!

Click on the link in the poster to watch a video of the game being played and further instructions. There is even a challenge there for you if you are feeling brave!

Hint: If you don't have a dice at home, don't be put off… you could use your 3D net skills and make one!
